Experienced Software Engineer with a demonstrated history of working in the computer software industry. Skilled in ReactJs, NextJs, Firebase, GraphQL, Redux, PHP, Laravel and WordPress. Strong engineering professional with an Engineer's Degree focused in Computer Science.

Love to work with new technology and experiment new techs. Always try to find something interesting in any type of project, which help me concentrate on the project properly.

Technical Skills

Likes: laravel php reactjs git react-redux graphql wordpress next.js

Experience

Software Programmer – RedQ, Inc
reactjs, wordpress, graphql

2016 → Current

I work with both backend and frontend part of a project, For frontend part I mostly work on the data part. The then the design team give it the actual shape.

In the backend I work with functionality, queries and APIs.

Education

Bsc in Computer Science and Engineering – Rajshahi University of Engineering and Technology
computer-science

2009 → 2013

In the study level we work on a android project which got first place in a local app contest. Yah I was involved with many students group. But Somanupatik was the most successful. We distributed clothing, food, and different kind of facilities to the poor people around the country.
